Creating Your Pearson Testing Account

Beginning September 1, 2018, Texas educator candidates will need to create a new Pearson testing account. Once your new Pearson account is created, any Texas educator examination testing history you may have since 2006 will be available in your Pearson account. This includes your prior score reports.

There are no changes to the process for creating a TEAL account.

To create a Pearson testing account, you will:

- **Specify a permanent email address to use as your username.** Do not use an email address that is temporary, such as one associated with a college or district affiliation to which you may not always have access.
- **Create a password.** Passwords are required to be between 6 and 30 characters and must contain at least one letter and one digit and cannot contain spaces or any of the characters "&=" "<" ">" "\" "]" "-"
- **Create a security question and answer.** Your security question will be used to verify your identity should you need to change your password.
 - Best Language: What is your best language of communication?
 - First Language: Which language(s) did you first learn as a child?

Account Information

All email correspondence from Pearson will be sent to the email address that you indicate. Use a **permanent email address**, not an account such as one associated with a college or district affiliation to which you may not always have access.
